Volume 38, 1971

AHARONOV, DOV. Sequence of necessary conditions for univalence of a meromorphic function 595

ALEXANDER, H. Polynomial approximation and analytic structure 123

ALLAUD, GUY. Remarks on the loop space of a fibration 357

ANDERSON, L. W. AND HUNTER, R. P. A remark on finite dimensional compactifications 409

ANDERSON, L. W. AND HUNTER, R. P. A remark on finite dimensional compactifications 605

BALBES, R. AND GRÄTZER, G. Injective and projective Stone algebras ... 339

BATES, MARTIN R. AND OLSON, FRANK R. Simultaneous linear factors of a binomial (Mod M) 317

BEAN, RALPH J. Extending monotone decompositions of 2-spheres to trivial decompositions of E^3 539

BEITER, MARION. Magnitude of the coefficients of the cyclotomic polynomial F_{pqr}, II 591

BELLAMY, DAVID P. A non-metric indecomposable continuum 15

BOOTH, DAVID. Generic covers and dimension 667

BRANNAN, D. A. AND KIRWAN, W. E. The growth of the maximum modulus of univalent functions 805

BRYANT, J. L. On embeddings of 1-dimensional compacta in E^5 265

CARLITZ, L. Enumeration of symmetric arrays, II 717

CARLITZ, L. Note on the numbers of Jordan and Ward 783

CARLITZ, L. Some identities in combinatorial analysis 51

CARLITZ, L. A sorting function 561

CHANEY, R. W. Note on Fourier series on the p-adic integers 387

CHIHARA, T. S. Orthogonality relations for a class of Brenke polynomials . 599

COHEN, ECKFORD. Pairs of relatively prime integers in residue classes and binary compositions 461

CONRAD, PAUL. The essential closure of an archimedean lattice-ordered group 151

CRAGGS, ROBERT. Extending homeomorphisms between approximating polyhedra 161

CRONIN, JANE. Topological degree and the number of solutions of equations 531

FENG, Y. K. AND SUBBARAO, M. V. On the distribution of generalized K-free integers in residue classes 741

FRENCH, JAMES AUSTIN. A σ-initially locally finite characterization of large inductive dimension for metric spaces 251

FULTON, JOHN D. AND PERKINS, JOHN C. Symmetric involutions over fields of characteristic 2 697

GARLING, D. J. H. The filter condition, the closed neighbourhood condition, and consistent seminorms 299

GASPER, GEORGE. On the extension of Turán's inequality to Jacobi polynomials 415

GOLDSMITH, DONALD L. A generalized convolution for arithmetic functions 279

GRABINER, SANDY. A formal power series operational calculus for quasi-nilpotent operators 641

GRANIRER, E. On finite equivalent invariant measures for semigroups of transformations 395

GRÄTZER, G. AND BALBES, R. Injective and projective Stone algebras ... 339

GRIMSON, ROGER C. Some results on the enumeration of symmetric arrays 711

GROENING, W. A. Quasianalyticity for functions of several variables 109

GUPTA, HANSRAJ. On the enumeration of symmetric matrices 709

HAGER, ANTHONY W. Algebras of measurable functions 21

HAGOPIAN, CHARLES L. A cut point theorem for plane continua 509

HALPERN, BENJAMIN. Asymptotic periodic point theorems 1

HANSON, LESLIE ANN AND PORTER, A. DUANE. Orthogonal similarity of normal matrices in GF(q) 795

HANSON, T. H. McH. Splitting topological semigroups 77

HASLAM, H. B. G-spaces mod F and H-spaces mod F 671

HAUTUS, M. L. J. AND KLARNER, D. A. The diagonal of a double power series 229

HEINZER, MARTIN. Strongly convergent derivation automorphisms on a class of wildly ramified v-rings 99

HEMMINGSEN, ERIK AND REDDY, WILLIAM. Montgomery-Samelson coverings on manifolds 635

HOCHSTER, M. Existence of topologies for commutative rings with identity 551

HORADAM, A. F. AND SHANNON, A. G. Generating functions for powers of third order recurrence sequences 791

HUNTER, R. P. AND ANDERSON, L. W. A remark on finite dimensional compactifications 409

HUNTER, R. P. AND ANDERSON, L. W. A remark on finite dimensional compactifications 605

HURLEY, JAMES F. Extensions of Chevalley algebras 349

KEESLING, JAMES AND NANZETTA, PHILIP. On certain ideals of C(X) ... 259

KIM, SOON-KYU. Local triviality of completely regular mappings 467

KIRWAN, W. E. AND BRANNAN, D. A. The growth of the maximum modulus of univalent functions 805

KLARNER, D. A. AND HAUTUS, M. L. J. The diagonal of a double power series 229

KOOSIS, PAUL. Weighted quadratic means of Hilbert transforms 609

KOST, FRANK. Finite products of Wallman spaces 545

KRA, IRWIN. Deformations of Fuchsian groups, II 499

KREITH, KURT. A Picone identity for strongly elliptic systems 473

LAWSON, J. D. The relation of breadth and codimension in topological semilattices, II 555

LEE, D. H. Group extensions by totally disconnected groups 205

LINDAHL, R. J. AND MASERICK, P. H. Positive-definite functions on involution semigroups 771

LONG, C. T. AND WOO, N. On bases for the set of integers 583

LUTHER, NORMAN Y. A note on regular and anti-regular (weakly) Borel measures 147

MARCUS, MARVIN AND WATKINS, WILLIAM. Partitioned Hermitian matrices 237

MASERICK, P. H. AND LINDAHL, R. J. Positive-definite functions on involution semigroups 771

MAYER, R. A. On the Fourier series of certain characteristic functions on SU(2) 63

MCAULEY, LOUIS F. A note on spaces of certain non-alternating mappings onto an interval 43

MCNEIL, PHILLIP E. Group extensions of null semigroups 491

MERRIS, RUSSELL. Trace functions, I 527

NANZETTA, PHILIP AND KEESLING, JAMES. On certain ideals of C(X) .. 259

NIVEN, IVAN. A characterization of complementing sets of pairs of integers 193

OLSON, FRANK R. AND BATES, MARTIN R. Simultaneous linear factors of a binomial (Mod M) 317

PASSI, HARSH ANAND. An asymptotic formula in partition theory 327

PECK, N. T. Support points in locally convex spaces 271

PELLICCIARO, E. J. Compatibility theorems for infinite differential systems 733

PERKINS, JOHN C. AND FULTON, JOHN D. Symmetric involutions over fields of characteristic 2 697

PETRICH, MARIO. On transitive representations of semigroups by 1-1 partial transformations 305

PORTER, A. DUANE AND HANSON, LESLIE ANN. Orthogonal similarity of normal matrices in GF(q) 795

RADFORD, DAVID E. On the convergence of the zeta function of a commutative ring 521

RAN, A. One-parameter groups of formal power series 441

REDDY, WILLIAM AND HEMMINGSEN, ERIK. Montgomery-Samelson coverings on manifolds 635

REDDY, WILLIAM L. Open simplicial maps of spheres on manifolds 137

RICE, JOHN R. The degree of convergence for entire functions 429

RIDER, DANIEL. Central idempotent measures on SIN groups 187

RILEY, JOHN P., JR. Decompositions of E^3 and the tameness of their sets of non-degenerate elements 255

RIORDAN, JOHN. Symmetric function expansions of power sum products into monomials and their inverses 285

RUCKLE, WILLIAM H. The tensor product of complete biorthogonal sequences 681

SAWOROTNOW, PARFENY P. Bochner-Raikov theorem for a generalized positive definite function 117

SHANNON, A. G. AND HORADAM, A. F. Generating functions for powers of third order recurrence sequences 791

SHIRLEY, E. D. AND STRALKA, A. R. Homomorphisms on connected topological lattices 483

SHMUELY, ZAHAVA. On strongly countable-dimensional sets 169

SMITH, WALTER L. AND WILKINSON, WILLIAM E. Branching processes in Markovian environments 749

SMITH, WILBUR L. A generalized infinite product measure 765

SONI, KUSUM. An integral equation with Bessel function kernel 175

SPEERS, RICHARD. Lie structures in simple graded rings 81

STADTLANDER, DAVID. Actions with topologically restricted state spaces, II 7

STEPHENSON, R. M., JR. Products of minimal Urysohn spaces 703

STEVENS, HARLAN. Generalizations of the Euler ϕ-function 181

STRALKA, A. R. AND SHIRLEY, E. D. Homomorphisms on connected topological lattices 483

SUBBARAO, M. V. AND FENG, Y. K. On the distribution of generalized K-free integers in residue classes 741

TAYLOR, B. A. A seminorm topology for some (DF)-spaces of entire functions 379

THOMPSON, RICHARD B. Weak semicomplexes and the fixed point theory of tree-like continua 211

TIMOURIAN, J. G. Singular maps of manifolds 29

VAN METER, ROBERT G. The number of solutions of certain systems of equations in a finite field 365

VIGLINO, GIOVANNI. Seminormal and C-compact spaces 57

VIRSU, MARJATTA. On the linear dilatation of quasiconformal mappings in space 569

WADE, WILLIAM R. Uniqueness theory for Cesaro summable Harr series. 221

WATKINS, WILLIAM AND MARCUS, MARVIN. Partitioned Hermitian matrices 237

WEBB, WILLIAM A. An asymptotic estimate for a class of divisor sums.. 575

WILKINSON, WILLIAM E. AND SMITH, WALTER L. Branching processes in Markovian environments 749

WILLIAMS, KENNETH S. Note on Dickson's permutation polynomials.. 659

WONG, JAMES S. W. On $\mathfrak{L}_2$-solutions of linear ordinary differential equations 93

WOO, N. AND LONG, C. T. On bases for the set of integers 583

WRIGHT, PERRIN. Radial engulfing in codimension three 295

WU, T. S. On (CA) topological groups, II 513
